Our Commitments To The Planet

As pioneers of positive luxury, we want to be responsible for the path our products take. We are always working on how to nurture our planet even further, and this remains true with our corporate partnerships.

Here are our ever-evolving commitments to the earth:

- Our products have been Made in England since 1971 and we are committed to this for our future. This means we can uphold the highest quality standards on our doorstep while promoting local and greener manufacturing
- We have never tested on animals since 1971 and we never will, plus we have been Leaping Bunny-approved since 2012
- 100% of our formulas are vegetarian and 97% are vegan*—we'll be a manufacturer of 100% vegan formulas in 2022
- Our formulas are free from parabens and phthalates
- We have not used any microbeads in our products since 2017, choosing natural alternatives such as olive stones, black peppercorn and volcanic sand
- We have participated in the EU's Green Dot Programme since 2006, complying with packaging waste legislation for the recovery and recycling of packaging waste
- Our packaging has been 100% FSC certified since 2019, which ensures we source the best quality raw materials, while nurturing our natural resources
- Our plastic bottles are made with 50% recycled PET – this reduces our use of virgin plastic by the equivalent weight of approximately 4.8 million 300ml Molton Brown bottles per year
- And our nearby Elsenham manufacturing facility is carbon neutral. We have also used 100% renewable electricity there since 2016 and recycled nearly 98% of our waste in 2021.
