SUPPLIER OF TOILETRIES MOLTON BROWN LONDON

MOLTON BROWN
L O N D O N

Our Current
DISPENSING PROGRAMME
Assortment

Born on South Molton Street, London in 1971, Molton Brown is an icon of uniquely British style. Sourcing only the best ingredients in unrivalled concentrations, our quality has awarded us with a Royal Warrant from Her Majesty the Queen. We work side-by-side with our eclectic set of perfumers to empower our customers and hotel guests with long-lasting, distinctive fragrances they'll love, not like.

Our founders hand-mixed their first collections in their exclusive Mayfair salon, using only the finest materials, and never tested on animals. An early pioneer in positive luxury, we're continuing on this journey, as true believers that luxury and sustainability work hand-in-hand.

Indeed, our parent company, Kao Corporation, boasts strong Environmental, Social and Governance credentials. As a member of Dow Jones Sustainability Index, Kao has been listed as one of the world's most ethical companies. Deeply devoted to doing good, we partnered with internationally-renowned sustainability creative agency Futerra in 2019, working closely together to build our sustainability strategy.

Here are our ever-evolving commitments to the earth:

- Our products have been Made in England since 1971 and we're committed to this for our future. This means we can uphold the highest quality standards on our doorstep while promoting local and greener manufacturing. We're proud to control all of our own sourcing, carbon emissions and

waste, allowing us to put into place ambitious actions to preserve the environment

- We were one of the first in the UK to never test on animals, a groundbreaking concept at the time, and have been certified cruelty free since 2012 by the Leaping Bunny programme
- We're proudly a 100% vegetarian brand and will be vegan* by 2022, with 97% of our products already achieving this
- Our products have been paraben-free since 2016
- We have not used any microbeads in our products since 2017, choosing natural alternatives such as olive stones, black peppercorn and volcanic sand
- Although the majority of our palm oil is already traceable and responsibly sourced, we plan to use 100% sustainably sourced palm oil by the end of 2023
- Since 2016, our manufacturing facility in Elsenham has been powered by renewable electricity while 97% of its

waste is recycled, with an ambition to reach zero landfill waste by 2025. By this time, the facility will reduce the use of greenhouse gas by 30% per ton of products produced and be net carbon neutral

- We have participated in the EU's Green Dot Programme since 2016, complying with packaging waste legislation for the recovery and recycling of packaging waste
- Our packaging has been 100% FSC certified since 2019, which ensures we source the best quality raw materials, while nurturing our natural resources
- Since February 2020, our Hotel Accessories collection is made of fully recyclable outer packaging, and we're also expanding our Hotel dispensing programme, which helps eliminate the need for single-use bottles
- And by the end of 2020, our 300ml Bath, Body and Hand collection bottles will be made from 50% recycled PET, with plans to extend this to smaller sizes in 2021.

*No ingredients of animal origin.

NEW *Signature Dispenser*

- Prevents more than 18,250 bottles and 137kg of plastic being sent to landfill every year*.
- Designed to house 350ml from our Made in England Bath, Body, Hand and Hair Care collections.
